

Awareness and Education Guidelines Technical Workshop

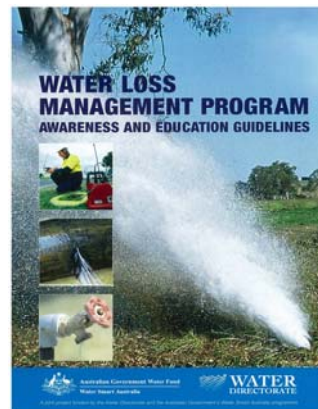

Wednesday 24 October 2007

Robyns Nest Boutique Resort, 188 Merimbula Drive. Merimbula

PURPOSE

This Water Loss Management workshop is aimed at all levels of water utility operations and management personnel and will cover:

- an overview of water loss investigation including water balance and Infrastructure Leakage Index calculation for each attendees system
- the 4 management practices for managing real losses
- the principles and techniques of sectorisation (zoning), flow and pressure measurement, Active Leakage Control and pressure management
- flow/pressure measurement and data logging, leak detection and pressure management equipment
- the Water Loss Management Program for regional NSW water utilities.

The Water Loss Management Program (WLMP) is a four year joint project by the Water Directorate and LGSA NSW which has \$7.4 million in funding from the Australian Government's Water Smart Australia programme. The Program and the Awareness and Education Guidelines are designed to encourage water loss management and leakage reduction across regional NSW.

Attendees will be able to use the WLMP Awareness and Education Guidelines and software (mailed to LWUs in Aug '06) to obtain a quick understanding of water loss in their local water system/s.

WORKSHOP FORMAT

9.30AM - REGISTRATION	12.30PM - LUNCH
10.00AM - WELCOME by the PROGRAM MANAGER, WATER LOSS MANAGEMENT PROGRAM	1.00PM - ACTIVE LEAKAGE CONTROL, PRESSURE MANAGEMENT PRINCIPLES AND TECHNIQUES
10.15AM - WATER LOSS MANAGEMENT CONCEPTS AND BENEFITS	2.00PM - OVERVIEW OF THE WATER LOSS MANAGEMENT PROGRAM
11.00AM - SECTORISATION (ZONING), FLOW AND PRESSURE MEASUREMENT PRINCIPLES AND EQUIPMENT	2.30PM - DISCUSSION AND QUESTIONS 3.00PM - FINISH

REGISTRATION

Contact Name: _____

Council/Organisation: _____

Email: _____ Phone: _____
(required for confirmation purposes)

Please note: There is no charge for this workshop and all meals are provided. One registration per attendee is required. **Attendees should bring their DEUS Performance Reporting information and schematic layouts (A3 size) of their system for calculations and activities.**

HURRY! To register, fax back your details to the Water Loss Management Program on **02 9242 4111** by **Fri. 19 Oct. 2007** or call Mirko Sramek on 02 9242 4127.
