e-safe rescheduled for July 2007

As you know, the 2007 NSW Energy Safety and Field Expo (**e-safe 2007**) was due to take place last week. However, the safety showcase was regrettably called-off in the interests of ensuring all available resources could be diverted to the safe and prompt restoration of power supplies in the Hunter region and Central Coast.

Reflecting the industry's commitment to safety excellence, Integral Energy is pleased to announce that, together with our industry colleagues, we have rescheduled **e-safe 2007**. The new details for the event are:

Wednesday 11 and Thursday 12 July 2007
Rosehill Gardens Exhibition Centre
Rosehill Racecourse, Sydney

We are in the process of re-inviting all of the participants, including exhibitors, competitors, guest presenters, adjudicators and other valued guests, to secure strong participation at the rescheduled expo. The Gala dinner will take place on 11 July. We hope you can help spread the word.

With your continued support and cooperation, we look forward to making this rescheduled event the resounding success it deserves to be.

A revised programme will be issued as soon as possible. Please do not hesitate to contact Integral Energy should you require further details about the rescheduled event
